MR. VINCENT COLYER has been heard from again. He was at Can, Apache, A. T., on the 6th ult., endeavoring to induce the Indians there to go on the White Mountain reservation, and he was to leave in a day or two for Camp Graut. THE NAVAL BOARD (of which Vice Admiral Rowan is president) to investigate the claims of

naval officers who deem that they were unjustly dealt with and passed over in the list of promo-tions, is in session at the Navy Department. THE DEAD LETTER OFFICE.-During the month of September last, 310,094 letters, from all sources, were received at the Dead Letter

returned to the writers. The amount of money returned to forwarders of letters was \$5,837.85. MAJOR CHARLES T. LARNED has relieved Major Rochester of the special duty assigned him at the office of Paymaster General Brice, and has assumed the duties of chief disbursing officer, the position recently occupied by Major

A HANDSOME VIGNETTE of the late General E. D. Baker, who was killed at Ball's Bluff early in the war, has been prepared at the Bureau of Engraving and Printing, Treasury Department, and will be placed upon either the new four or four and a half per cent. bonds. THE FIRST AT DITOR OF THE TREASURY has

sent to the Secretary his annual report for the

fiscal year ending June 30, 1871, which exhibits a statement of accounts settled in that office within that period amounting to \$1,773,277,492.02. The Auditor recommends an increase of compensation to his clerks. THE PRINTING of the new internal revenue stamps for tobacco, distilled spirits and beer is now progressing at the printing bureau of the Treasury Department, and the first instalment

are much neater than the old ones, and are printed in different colors, according to denomi-THE SCIENTIFIC LECTURE COURSE BEFORE THE YOUNG MEN'S CHRISTIAN ASSOCIATION. We print to-day the schedule announcement of the regular annual scientific course of lectures before the Y. M. C. A., and our readers will be greatly interested in the programme set forth. With such names as Prof. Morton, Rev. Dr. John Lord, Prof. Hillman, and, above all, the accomplished Prof. Tyndall, of England, the course is destined to be one of unusual merit. Prof. Rohde, of Hamburg, is comparatively new to this country, but his illustrated exhibitions of geology and the progress of civilization are highly commended by such men as Prof. Agassiz, as possessing great and unique merit, and as being especially adapted to the entertainment and instruction of teachers and advanced scholars. We are also glad to see that the scale of prices is unusually low, and that it is possible to achieve the benefit of this entire course, with

a reserved seat, at a rate equivalent to 25 or 30 cents for each lecture. It must be a success. Gen. Meigs' Refutation of the Seneca

Stone Scandal. WASHINGTON, D. C., October 5, 1971. Editor Star :- The Daily Patriot of 4th instant, calls attention to the fact that the correspondent of the New York Sun, of the 2d instant, accused the Quartermaster General of requiring Seneca sand-stone to be used, to the exclusion of all other stone, in the national cemeteries and works in the vicinity of Washington, which he controls; and coupled this assertion with the statement that the Quartermaster General owns \$9,000 in stock of this quarry.

Both assertions are untrue. Seneca stone not exclusively used, as the contracts and proposals on file at the returns office and elsewhere will show. The Quartermaster General does not own, and never did own any stock or interest in this quarry or in any other, and, moreover, no one ever of-fered him any stock, or solicited, or even advised him to take stock or interest in the conce Seneca stone is and has been used in the contracts for works of the national cemeteries. under charge of the Quartermaster's Department in this neighborhood, and so have been and are, used Manassas stone, blue gniess of the Potomac, cut sand-stone coping from Wyoming Valley, Pennsylvania, and blue stone

coping from the Hudson river. M. C. Meigs, Quartermaster General, Brevet Major General, U.S.A THREE THOUSAND SQUARE MILES OF WIS-CONSIN ON FIRE.-The fires which have been raging in the lumber forests of Michigan are still on their march of devastation. The latest advices are to the effect that the fire has crossed Fox river to Cover, covering a strip of land thirty miles in width, and that the present track of the different fires covers an area of three thousand square miles of territory. Hundreds of families have been made homeless by the besem of destruction; bridges, fences and farm buildings swept away; while forest animals are flying from the woods to the great consternation

of those persons who have not as yet been ar-fected by the fire fiend. THE "OLD CATHOLIC" CONGRESS .- A Berlin letter of the 20th ult. to the London News says: "The great event of the season will be the monster conference of the 'Old Catholics' at Munich People are rushing to it from all parts of Germany and of Austria, from Switzerland, from Italy, and even from France. Pere Hyacinth. under his true name, Abbe Loison, has already notified his impending arrival, and undoubtedly will meet with an enthusiastic reception, just because he is a Frenchman. Besides him, a young relative of M. Thiers himself is expected. Switzerland sends no less a person than the oldest and most respected of her statesmen, Herr

Keller, of Aarau, now in his eightieth year." REAL ESTATE SALES IN LOUDON COUNTY. VA .- The handsome brick residence on Market street, belonging to the estate of the late Dr Thomas H. Clagett, was last week sold at private sale by his administrators, H. O. Clagett and A. H. Rogers, for the sum of \$6,000; Samuel Orrison. purchaser. Mr. James M. Hail last week sold his "Cool Spring" farm, about 4 miles south of Leesburg, and containing 165 acres, for \$3,500; Thos. L. Burch, purchaser.—Leesburg Mirror.

SECESSION IN MEXICO.—The election in Mexico is completed, and Juarez has a majority of eighteen in Congress, making it certain for him, and Congress has nothing to do but to go through the form of a choice between the rival candidates. Whether the result insures peace to the distracted county is doubtful, as there are reports of a pending revolution in the Southern States with the purpose of uniting with Gautemala in the fermation of a separate Republic.

MEMBERS: OF THE K. K. K. VENTION. The Beform Delegates Claiming to be Admitted. ROCHESTER, Oct 5.—The convention was called to order at 11 a. m. Several members of called to order at 11 a. m. Several members of the reform delegation from New York made remarks urging their claims to seats in the con-vention, among them Tilden, who said he did not dare go home without lifting his voice in favor of hearing this delegation. He charged that the action of the convention yesterday was secretely concocted at midnight and sprung upon the con-vention. He spent the silent watches of last night to prevent these gentlemen from issuing

night to prevent these gentlemen from issuing an address stating their grievances. The convention voted to give the delegation a hearing.

Ottendorfer, the first speaker, said it was not the purpose of the delegation to throw a brand of disturbance in the convention, but was its purpose to have in the convention a delegation from New York which denounced and abhorred the corruptions of Tammany Hall. He thought the action of the committee yesterday would re-flect great dishonor on the democratic party, and to prevent this his delegation asked a hearing.

Abram R. Lawrence was the next speaker.

He said the delegation came here with a view of setting back the tide of condemnation which was setting in against the party over the mis-deeds of Tammany. The Tammany delegations came admitting there was a cloud hanging over them. He said if the delegation was ad-

mitted he guaranteed that New York would not be lacking in sustaining the ticket. Wm. E. Curtis was the next speaker. He said he had A LETTER FROM CHARLES O'CONNOR, which was, on motion, read. It says :-" New York presents to mere personal greed a promis-ing field for enterprise in many forms. Among them the very convenient instrumentality of legislative acts and administrative management could have been overlooked. It has of late been sedulously cultivated by selfish indi-viduals professing every variety of public opinion, and the parties which have alteropinion, and the parties which have alternately possessed the reins of power, as well as the citizens who generally take little part with either may be, probably, alike censured for not devoting more attention to constitutional safeguards by which the public interests might have been effectually protected. All have been more or less censurable in a somewhat venial degree and as a consequence, evils have grown degree, and, as a consequence, evils have grown up. On framing the present constitution of this State, the remedy for the supposed injustice was magnanimously, but unwisely, conceded to the opposition, from which incalculable evils have

resulted. [This is all of the letter we received before going to press.] THE EPISCOPAL GENERAL CON-VENTION. BALTIMORE, Oct. 5 .- In the Episcopal convention the morning service was read by Right Rev. Bishop Lee, of Iowa. The House of Depu-

Triennial General Convention of the The opening services of the General Conven-vention of the Protestant Episcopal Church in the United States took place in Baltimore yes-terday morning at Emanuel Church, in the pres-

terday morning at Emanuel Church, in the presence of an immense congregation of clergy and laity. The sermon was delivered by the venerable Bishop Johns, of the Diocese of Virginia, who took for his text the 5th chapter of the Second Epistle to the Coriathians, 13th and 14th verses: "For whether we be beside ourselves, it is to God; or whether we be sober, it is for your cause, for the love of Christ constraineth us." The presiding Bishop offered the prayer of consecration, and the sacred elements were distributed by a number of the Bishop of Nassau, and the Dean of Chester assisting. The scene presented during the administration of the Holy Communion was one of exceeding solemnity and Communion was one of exceeding solemnity and impressiveness. After the opening services the Bishops retired to Grace Church, where their

delil erations will be held. The House of Delegates was then organized, by the re-election of the president and secretary of the last House; Rev. Dr. Craik, of Kentucky, president, and Rev. Dr. Perry, secretary, and some preliminary business was transacted. Besides the English Church dignitaries present, there were other visiting clergymen, among them Rev. J. Theodore Holby, an Episcopal clergy-man from Pert-an-Prince. Mr. Holby is an edcated colored man, who comes regularly accred-

The DRY Goods TRADE -[From the New York Daily Bulletin.]-The month opens with the trade in about the same condition as was noted at the time of our last review. Brown sheetings and shirtings are in fair jobbing demand in all grades. Bleached sheetings and shirtings meet fair sale in the medium-priced qualities adapted to the current wants of the trade. Fine heavy goods continue sold close to the production, but are still held at the old quotations. Cotton drills are selling in limited ag-gregate amounts. Canton fiannels have become well sold out of first hands in all makes popularly known, and there is still a fair package inquiry, but the movement is unimportant in the aggregate; prices remain firm. Prints are sell-ing fairly in all standard grades; there has been an advance of &c. on Cocheco and Pacific fan-cies and Albion and Wabash solids, while the few styles of Manchester fancies which were held at 12c. have been reduced to 11%c. Mensseline delaines and other dress fabrics are jobbing well. Shawls, in both wool and worsted styles, have not met very spirited sales excepting in stripes. There has been a break in prices on some prominent makes. Cloths have not sold with any degree of freedom, excepting the most popular grades and finer qualities; quotations are well sustained by the light stocks. Doeskins have been in good request in the heavier grades, but the sales have been more of foreign than domestic goods. Cassimeres are reported

to be a little tirmer. THE POLITICAL CONVENTIONS YESTERDAY .-After the New York democratic convention turned out both the Tammany and reform delegates from New York city, as stated in last evening's STAR, a platform was adopted, in which the "new departure" is swallowed entire, and the Tammany swindles are repudiated. THE TROUBLES AT THE COAL MINES AD-JUSTED.—The Workingmen's Benevolent Association having violated the agreement of May the difficulty was yesterday adjusted by the association and the anthracite board of trade. The minimum on the 11th May agreement was \$2.25. The anthracite board of trade had submitted a proposition to pay wages at the rate as if coal was \$2.75 at Port Carbon, without any rise or fall from the first day of October to the close of the year. This was not accepted by several districts, but all finally agreed to accept wages as if coal was \$2.75 at Port Carbon as a minimum, and should coal advance over \$2.75, that they receive one per cent for every three cents coal
